

**BIG TILT**  
BY WELLPUTT

« Golf is a unique game and putting represents the biggest opportunity for players to improve their score. 45% of the strokes that we take are strokes made with a putter. »

---

*Cameron McCormick, golf coach of Jordan Spieth*

## THE JOURNEY BEGINS

---

Wellputt was created by Boris Pansart. With his innovative vision, golf knowledge and partnerships with the best industries and technologies, the Wellputt products are today considered as some of the world's best putting training concepts.

It all started in 2010, when he invited some PGA Tour players to his home, in France. He had organized some fun putting games to play on his living room carpet. While playing, his 2 year old daughter came in the room and started drawing circles and lines on the carpet with her chalk pastels. That's when it all clicked.

## THE WELLPUTT CONCEPT

---

The Wellputt original designs were created in order to enhance the golfer's performance with innovative putting training aids. The Wellputt Mat not only teaches you how to putt, but it will make you an excellent putter. You will be able to work your alignment, your touch, your routine and speed control.

Over the years, Wellputt has become a leader of putting training aids in the world, from a scientific understanding of golfers and athletic performance. It has been tested and approved by 2015 world's best coach Cameron McCormick (coach of Jordan Spieth) who is now our brand ambassador.

# BIG TILT

PRO MAX

## WHAT?

**This is the new Wellputt putting training concept.**

The Big Tilt is a tilting platform that allows you to reproduce real game situations in order to train effectively. The Big Tilt Pro Max is a package that includes the video projector with its Well-Line Technology and an automated vacuum cleaner. The new Well-Line aiming system offers a guided training program suitable for all level players to progress quickly with fun exercises.

## WHY?

We have created this concept to meet the needs of many golfers wanting to practice and improve their putting skills with different green inclinations. By recreating real life game situations, our training program will make you progress rapidly and in a playful way.

## WHO?

This concept is suitable for to golfers. For the beginner wanting to understand the trajectories, for the professional who wishes to teach putting with different analysis tools. Our training program proposes exercises with increasing difficulty through the training. You will have the opportunity to choose the training most suited to your level and you will be able to record your progression.

(underneath platform) via the app*

**LOW PROFILE**  
*to fit all the interiors*

**STANCE / FEET DISTANCE**

The Well-Line Technology is a putting training program assisted by light projections which indicates to the player the ideal putting trajectories. This is the new high-tech product of Wellputt.

Coupled with the Big Tilt, this new training concept puts the player in a real game situation with uphill and downhill putts. The Well-Line system will indicate to the player several trajectories allowing him to hit his putts with more confidence and certainty. He will be able to visualize the ideal trajectories according to the angle of the tilted platform and then be able to reproduce them on a real green.

**TILTED 5% (max)**  
right / left

**TILTED 0%**  
flat
